

FARPLAS ENVIRONMENTAL, HEALTH AND SAFETY POLICY

As Farplas, we aim to protect the environment and human health, as well as to maintain sustainability and continuous improvement through a preventive approach that includes the use of continuous improvement techniques and relevant technologies in all of our operations.

In line with these goals;

- * To follow and comply with national and international legislation on environment, energy and occupational health and safety
- * To ensure continuity and continuous improvement of business by determining our risks and opportunities related to environment and occupational health and safety, and following them regularly,
- * To prevent occupational health and safety risks by eliminating the hazards and adapting the work to people, to achieve the sustainable goal of "Zero Work Accidents and Occupational Diseases" by constantly improving them
- * To determine effects may cause environmental pollution, to take the necessary measures, to reduce the negative environmental impacts in all processes with the lifecycle approach begin with the step of design,
- * To use natural resources efficiently by taking precautions against soil, air and water pollution,
- * To give priority to reducing the effects of climate change and energy efficiency * To prevent pollution at its source, to reduce waste generation, to support recycling and recovery, to take measures against pollution that may occur as a result of possible accidents,
- * Provide necessary human, technology, infrastructure, finance, etc. resources for the protection of the environment, people, energy efficiency and reducing the use of natural resources. to take precautions by following new technologies,
- * Our basic principles are to communicate transparently with our employees and stakeholders on ethical values, environment, energy and occupational health and safety, to share practices and to raise awareness through training activities, and to ensure sustainability.

Our goal is to leave a clean environment to the future and to fulfill our responsibilities to create a human-oriented, healthy and safe working environment.
